

# Boom AURA

an intelligent video bar for superior meetings

## FEATURES

Ultra HD 4K video

AI Auto-framing

AI Voice-tracking

Wide angle 120° fov

10x digital zoom

8 megapixel CMOS  
sensor

6 digital array mics

Plug & Play

3-year warranty

The Boom AURA features 4K Ultra HD, 10x digital zoom and built-in AI functions that include highly responsive facial detection and sound source localization providing intelligent auto-framing and voice-tracking. Six digital array mics provide 6 meters of pickup range ensuring crisp audio and an optimal intuitive response. The all-in-one AURA delivers a smart experience for your video conference calls. Intelligent hardware makes better meetings. Simply.

### Intelligent & versatile

Choose between a variety of AI features to optimize the meeting experience. Auto-framing seamlessly centers and frames participants while voice-tracking uses sound source localization to frame and track active speakers for a dynamic meeting experience that incorporates all participants with ease.

### Quality where it counts

8MP CMOS image sensor provides a 4K Ultra HD image projecting a professional, sharp image in every meeting.

### Excellent audio

High-fidelity audio with a 48kHz sampling rate provides lossless audio and full spectrum of sound for meeting participants. Acoustic Echo Cancellation (AEC) and Automatic Gain Control (AGC) further enhance the experience and work to ensure Full Duplex quality at a distance of 6 meters.

### A lens with a view

120° wide angle field of view ensures all participants are seen, even in small meeting spaces.

### Plug & Play. Really.

Mac or PC? Zoom, Teams, Webex, or Meet? With USB 3.0, simply connect and enjoy your favorite video conferencing platform.

## Boom AURA

Designed and built for the modern huddle room and meeting spaces with a focus on excellent quality and ease of use

### Camera

**Image sensor:** 4K 8MP CMOS image sensor

**Lens:** 4K glass

**Pixels:** 8MP, 16:9

**View angle:** 120° diagonal, 107° height, 74° vertical **Zoom:** 10x digital

**Focus:** Advanced AI auto-focus

**SNR:** ≥55dB

**Resolution:** 3840 x 2160 **Video features:** Brightness, definition, saturation, contrast, white-balance, low light optimization

### Audio

**Microphone:** 6 built-in digital array microphones, 20ft/6m range

**Audio processing:** AEC, AGC, ANS, sound source localization

**DNR:** 2D & 3D

**Speaker:** 2 x 7W

### Details

**Video output:** USB 3.0

**Temperature:** 15°F - +120°F (-10°C - +50°C)

**Dimensions:** 23.5in x 3.4in x 3in (598mm x 86mm x 77.5mm)

**Weight:** 4.17lbs/1.9kg

**Mount:** wall mount bracket/stand

**Operating system:** Windows® 7, Windows 10 Mac OS X® 10.10 or higher **Hardware requirement:**

2.4 GHz Intel® Core 2 Duo processor or higher, 2GB memory or higher, USB 2.0 port (USB 3.0 for 4K)

**Cable length:** 16.4ft (5m)

**In the box:** AURA video bar, USB 3.0 cable, remote, power cord, wall-mount bracket and quick guide
