

Mitel 6800 SIP Accessories

Enhance your 6800 series SIP phone to increase functionality and productivity.

Mitel offers a choice of two Expansion Modules enabling 6800 SIP series phones to become robust productivity-enhancing desktop communication tools. Powered directly from the phone, up to three modules can be daisy chained together providing additional programmable keys support-ing advanced features such as SCA, BLF and Speed Dial.

M685

The color LCD display of the M685 Expansion Module is a perfect addition for the Mitel 6865, 6867 and 6869 SIP phones. Proving 28 keys with LED and the ability to page through three sets of 28 keys gives outstanding flexibility and expandability.

- Supported on the 6865, 6867 and 6869
- 28 programmable softkeys with LED
- 4.3" 480x270 pixel color backlit LCD display
- Can be daisy chained with the M680 for a combined total of up to three modules
- Powered by the phone; no separate power adapter required

M680

The M680 Expansion Module is a compact and cost efficient addition for Mitel 6800 series SIP phones providing 16 additional programming keys. Each key has a built in LED enabling support of advanced features like BLF, SCA as well as Speed Dial.

- Supported on the 6865, 6867 and 6869
- 16 programmable keys with LEDs
- Paper insert labeling
- Can be daisy chained with the M685 for a combined total of up to three modules
- Powered by the phone; no separate power adapter required

K680 Detachable Magnetic Keyboard

The K680 magnetically connected keyboard provides a full QWERTY keyboard for a more natural typing interface. The Keyboard helps to easily facilitate dial by name, directory search, XML applications and more.

- *Supported on the 6867 and 6869*
- *Magnetically connects to phone*
- *4.3" 480x270 pixel color backlit LCD display*
